

QHHT Subject Preparation Guide

Steps to prepare for your session

Preparing for Your QHHT Session

Quantum Healing Hypnosis Therapy (QHHT) is a powerful technique that allows you to explore past lives, heal emotional and physical issues, and connect with your higher self. To ensure you have the most beneficial experience, it's important to properly prepare. This guide provides detailed steps to help you get ready for your session.

Steps to Prepare

1. Set Your Intention

Spend a few minutes in quiet reflection. Ask yourself: *What do I hope to learn or heal in this session?* Write down **1–3 clear intentions or questions**. These might relate to:

- Past life exploration
- Healing a specific emotional or physical issue
- Understanding a recurring pattern in your life
- Connecting with your higher self or guides

2. Prepare Your Body

- Eat lightly before the session. Avoid heavy meals, caffeine, or alcohol.
- Stay hydrated, but avoid excessive liquids right before the session.
- Wear **comfortable, loose-fitting clothing**.
- Consider a short walk or gentle stretching to relax your body.

3. Calm Your Mind

Spend **5–10 minutes in meditation or deep breathing**. Visualize a white or golden light surrounding you, bringing peace and protection. Release any expectations or fears. Trust that whatever arises is for your highest good.

4. Gather Supporting Items (Optional)

- A journal and pen for post-session reflections.
- A small crystal or personal object that feels grounding.
- A blanket or shawl for comfort during the session.

5. Communicate with Your Practitioner

Share your intentions and any concerns with your practitioner. Ask any logistical questions (duration, what to expect, etc.). Confirm any post-session care instructions.

6. Release Control

Enter the session with an open heart and mind. Allow your subconscious to guide the journey. Remember: You are always in control and can pause or stop the session if needed.

Final Thoughts

By following these steps, you'll create a foundation for a successful and transformative QHHT session. Embrace the journey with openness and trust, and allow yourself to receive the healing and insights that await you.
